All descriptions of Government securities are strong, and in demand at full prices. The State Bounty loan has advanced to 100½, and closes strong. In railway mortgages and bank shares little doing. The coal stocks are lower upon the anthracite companies, and neglected upon the small peculative kinds. Railway shares are generally ligher, in sympathy with the additional rise in the shape stocks. Michigan Southern sold at the First Board as high as 88½ cash, and at the same pession was done at 83, seller 30. Fort Wayne sold up to 90½, and New-York Central at 91½. The discount rate for short dated paper at the banks is 73:10. In the street circles, the best double names, with three or four months to run, are easily negotiated at 7 and 8 per cent, but the lower grades are rather unsalable, at from 9 to 12, and in some instances at 15 per cent. The very lowest rates apply to certificates of indebtedness, whether long or abort.
